MAICON FIGUEREDO

QA AUTOMATION ENGINEER | SOFTWARE TEST ENGINEER

Curitiba, Paraná, Brazil | +55 41 99958-5592 | maiconcdz@gmail.com | linkedin.com/in/maiconit-figueredo/

PROFESSIONAL SUMMARY

QA professional with 7+ years of experience in software testing and automation using Cypress, Selenium and Robot Framework, REST API validation, performance testing and CI/CD integration. Experienced in functional, regression, exploratory, integration, E2E and BDD/Gherkin testing, defect management and collaboration with agile/global teams. English: B2, used in technical meetings.

CORE SKILLS

Cypress, Selenium, Robot Framework, Postman, Newman, SoapUI, Swagger, JMeter, Jenkins, GitLab CI, JavaScript, TypeScript, Python, C#, Java, SQL, REST, JSON, BDD/Gherkin, Jira, Confluence, Azure DevOps/TFS, Git, Scrum, Kanban

PROFESSIONAL EXPERIENCE

Senior Software Quality Assurance Specialist **Apr 2025 - Present**

NTConsult | Curitiba, Paraná, Brazil

- Plan and execute functional and automated testing for web applications across front-end and back-end layers.
- Develop and maintain Cypress automation using JavaScript/TypeScript; validate REST APIs with Postman.
- Integrate Newman test execution into Jenkins and GitLab CI pipelines.
- Manage defects and user stories in Jira; produce test evidence/reports and support acceptance testing.
- Execute exploratory, regression, smoke and integration testing and collaborate with Scrum/Kanban development, product and business teams.

Senior Software Quality Assurance Specialist **Mar 2022 - Apr 2025**

Keeggo | Curitiba, Paraná, Brazil

- Automated E2E and functional tests using Robot Framework, Selenium with Python and Cypress.
- Performed REST/SOAP API testing with Postman and SoapUI, validating payloads, status codes, headers and authentication.
- Executed performance/load testing with JMeter and analyzed throughput, latency and errors.
- Created BDD/Gherkin scenarios, maintained manual/automated test evidence in Jira/Test Plan and supported CI/CD execution.
- Collaborated with international agile teams in India through daily meetings, refinements and continuous deliveries.

Senior QA Specialist **Nov 2021 - Apr 2022**

Wipro | Curitiba, Paraná, Brazil

- Worked as QA on a T-Mobile project, validating functionality related to adding new products to the platform.
- Performed manual and automated testing using Robot Framework and Selenium with Python.
- Validated REST APIs with Postman and reviewed API contracts using Swagger.
- Managed testing activities and defects using Azure DevOps Boards/Test Plans and created BDD scenarios with development/product teams.

Test Analyst **Oct 2018 - Nov 2021**

DBServer | Curitiba, Paraná, Brazil

- Created and executed functional, regression and exploratory test plans and cases.
- Automated tests with Visual Studio, Selenium and NUnit using C#; executed performance/load tests with JMeter.
- Used SQL, C# and Java for testing/data validation and maintained Azure DevOps/TFS artifacts.
- Wrote BDD/Gherkin scenarios, refined acceptance criteria with the Product Owner and tracked defects in Jira.

EDUCATION

Technology Degree in Systems Analysis and Development (Information Technology) **2012 - Dec 2015**

Facsul - Faculdade de Campina Grande do Sul | Completed

CERTIFICATIONS

Scrum Foundation Professional Certificate - CertiProf | Continuous Learner - CertiProf | Zephyr Scale
